Generosity Plus Pricing & Investment Model
A congregation's investment level in Generosity Plus is based primarily on its annual operating budget and the anticipated scope of the partnership. Our 3 investment levels—*Grace, Sustaining, and Paying It Forward*—help make this individualized, 12–18 month ministry of accompaniment accessible to congregations with different financial capacities. We will discern the appropriate level with you before the partnership begins. Review the provided Generosity Plus Investment Guide for current investment levels, payment options, and additional details. Congregations are also responsible for travel and lodging expenses associated with on-site consultation.

Covenant between the Center for Faith & Giving and (Church)
I/We understand that Generosity Plus is a collaborative ministry of accompaniment. We agree to provide the information requested by the Center for Faith & Giving, participate fully and honestly in the consultation process, and work with CFG to select an investment level that reflects our congregation's financial capacity and the scope of the partnership. We understand that our investment level and payment schedule will be confirmed in a written partnership agreement and that our congregation is responsible for the actual expenses associated with on-site travel.
